PROFILE

Full Stack developer with 2 years of professional experience in JavaScript, HTML, and CSS, proficient in technologies such as Node.js, Express.js, and serverless architecture. I also have knowledge of AWS services, SQL and NoSQL databases, and popular frameworks such as React.js, Angular, and Vue.js. I am proficient in TypeScript for backend development and have familiarity with languages such as Java, Python, GO, and PHP. I use preprocessors such as SASS and I am familiar with design frameworks like Bootstrap and Tailwind. My passion lies in creating innovative and efficient solutions, so I am looking to contribute to projects that require a comprehensive approach to web development and the implementation of modern technologies.
